

Where Quality, Innovation & Technology Converge.

A 100% Black youth-owned technology and procurement company delivering cybersecurity, software, data analytics and ICT consulting for clients across South Africa.

| About the Company

Evinco Industries (Pty) Ltd is a proudly South African, 100% Black youth-owned technology and procurement company founded in 2024 and headquartered in Gauteng, operating at the convergence of quality, innovation, and technology.

Built compliant from day one — formally registered, listed on the Central Supplier Database, and governed by structured, ethical business practices — Evinco has delivered more than 20 projects and grown into a six-figure business, driven by trusted client relationships and repeat engagements.

I Mission, Vision & Values

OUR MISSION

To deliver innovative, high-quality procurement and technology solutions that exceed client expectations, built on integrity, technical excellence and lasting partnerships.

OUR VALUES

Integrity

We compete on merit and deliver what we promise, with transparent, properly documented processes.

Quality

Rigorous quality control in every project — robustness, security, and data integrity come standard.

Innovation

Continuous learning, professional development, and engagement with emerging technologies.

Partnership

Lasting client relationships built on trust, responsiveness, and measurable outcomes.

I Our Strategic Goals

1

Deliver Secure & Reliable Solutions

Develop secure, scalable, and dependable software that clients can trust — prioritising robustness and data integrity in every project.

2

Invest in Continuous Innovation

Empower our team through ongoing learning, professional certifications, and engagement with emerging technologies.

3

Build Long-Term Partnerships

Foster lasting client relationships built on transparency and technical excellence — delivering measurable outcomes for every organisation we serve.

| Leadership Team

Ofentse Kgwedi

FOUNDER & CEO

Founded Evinco while completing her BCom in IT Management, bringing hands-on experience in procurement, tendering and compliance. A data analyst skilled in SQL and Power BI, she leads strategy, client relationships and service delivery.

Tafa Makanganise

CHIEF TECHNOLOGY OFFICER

Leads Evinco's technology function — solution architecture, software engineering, and secure application development — with a security-first mindset that sets the technical direction of the business.

KNOW THE PULSE OF YOUR BUSINESS

Evinco Vitals

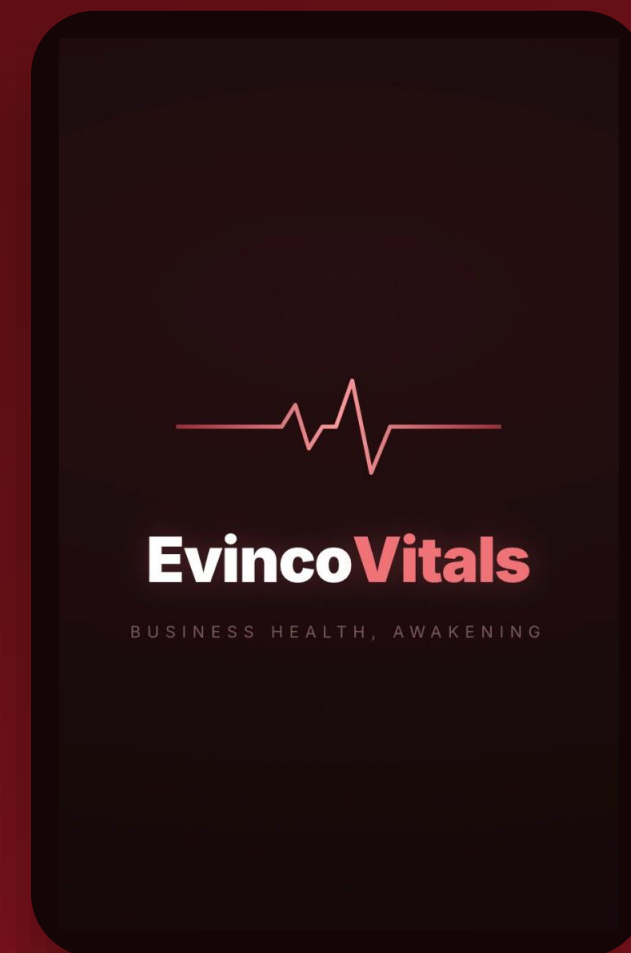

EVINCO'S FLAGSHIP PRODUCT

Our proprietary business health platform, purpose-built for South African SMEs — real-time insight into the numbers and compliance factors banks, tender boards and corporates use to assess them.

Executive dashboards and performance monitoring

AI-powered business insights

Business health scoring across key operational pillars

| Construction Division — Bana Ba Mpapane

Site-level execution, backed by procurement discipline

Our construction capability is delivered through Bana Ba Mpapane, a sister company under the same leadership, dedicated solely to construction. Bana Ba Mpapane focuses on construction project delivery, tendering, and RFQ participation — bringing site-level execution together with the compliance discipline and documentation rigour that public and private procurement demands.

- General building and construction works
- Construction tendering and RFQ administration
- Construction compliance and project documentation
- Materials procurement and site logistics support

Together, Evinco Industries and Bana Ba Mpapane allow clients to source technology, procurement, and construction delivery from one trusted leadership team.

| Our Commitment

Technology is the foundation upon which stronger businesses are built. Every solution we deliver is crafted with security, scalability, and innovation at its core — designed to generate measurable business value from day one, across every engagement Evinco delivers.

Build Securely

With robust cybersecurity and resilient architecture.

Operate Efficiently

Through smart ICT consulting and automation.

Grow Confidently

Powered by data analytics and digital transformation.

Let's build the future together.
